Easy. More Secure. Affordable.

HP gt7720 Thin Client

The HP gt7720 Thin Client, with its familiar Windows interface, is an extremely powerful access device for your server-based or virtual desktop infrastructure.

PC performance with thin client benefits

Enjoy excellent graphics support, run applications faster, improve worker productivity – all while helping ensure greater security, increased reliability, easier management and lower TCO. As with all of HP's thin clients, the HP gt7720 is easy to set up and provides a variety of management options to meet the needs of different business needs.

Windows Embedded Standard

This next generation of Windows XP Embedded provides a familiar Windows experience; features the latest full featured browser, media player and communications protocols; and supports local desktop applications.

Superior performance

The HP gt7720 features a robust 2.3 GHz dual-core processor ¹ with a generous amount of memory, providing the horsepower to deliver the full blade workstation experience in a compact thin client footprint. Configured with dual channel memory, data throughput is further optimized, bringing new levels of system performance in thin clients.

Rich multimedia

Bring superb 2D/3D graphics, full motion video, enhanced browsing and a richer Web 2.0 experience to remote client computing. In combination with preinstalled HP Remote Graphics Software and support for industry leading brokers, this specialty thin client is ideal for VDI and blade environments, supporting impressive delivery of streaming media and USB redirection over remote connections.

Multi-display, excellent resolution

Efficiently multi-task with two displays, (either standard or wide-screen) in high resolution – up to 5120x1600 (at 2560x1600 on 2 displays). Multi-display rotation allows for a mixture of portrait or landscape orientations across displays.

Put the performance of the HP gt7720 to work for your business.

Weight	1.6 kg with stand
Power	Worldwide auto-sensing 100-240 VAC, 50-60 Hz energy-saving automatic power-down, surge-tolerant 120 W power supply
Operating temperature	10 to 35° C
Non-operating temperature	-30 to 60° C
Warranty	3 years pick-up and return service (Certain restrictions apply)

¹ This system requires a 64-bit operating system and 64-bit software products to take advantage of the 64-bit processing capabilities of AMD technology. Dual/quad/triple-core processing available with AMD technology is designed to improve performance of this system. Given the wide range of software applications available, performance of a system including a 64-bit operating system and a dual-core processor will vary.
