Powerful, flexible, easy, innovative!

HP Compaq t5730w Thin Client

Business environments that insist on maximum flexibility and power in a slim design will appreciate the HP t5730w. The powerful AMD Sempron 2100+ processor, Windows® Embedded Standard, support for local applications, a full browser, HP Remote Graphics Software (RGS, HP Remote Desktop Protocol (RDP) Enhancements Software, Enhanced Write Filter, Symantec Endpoint Protection, terminal emulation and native dual monitor and widescreen support make the t5730w your optimum choice. Add even more functionality with optional integrated wireless ^{1, 2} technology or an Expansion Module for installing a wide range of devices.

Easy to deploy and manage

Reduce the complexity and cost of managing your IT assets with HP Device Manager or Altiris Deployment Solution. Easily deploy, configure and manage software with HP ThinState Tools or HP Client Automation Software.

Easy to secure

Enhanced Write Filter and Symantec Endpoint Protection provide multilayered security. Add smart cards for more secure access to your network. A secure USB compartment protects USB options against tampering and theft.

Easy on the budget

Enjoy years of reliable use with solid-state design and industry-standard architecture. Centralized management and no moving parts means fewer help desk calls, less down time and greater end user productivity.

Easy on the environment

Designed with the environment in mind, the energy-efficiency of the t5730w saves power and money. For space-constrained environments, the HP Quick Release (sold separately) allows many space-saving mounting options – on a monitor, wall, stand or under a desk. Make

efficient use of your workspace with the HP Integrated Work Center Stand for all-in-one convenience.
