

Reinforce security, improve productivity, and get accurate identification

HP Proximity Card Readers

What if you could...

- Help protect confidential documents by releasing print jobs only to the right user?
- Enhance the security of networked printers by easily and accurately authenticating users?
- Support a wide variety of proximity cards with one common reader?
- Meet HIPAA requirements for log-on readers?

Solution at a glance

Help protect your company's confidential information and control printing access by requiring users to authenticate at imaging and printing devices with their existing proximity cards. In the past, the wide variety of proximity cards on the market made it expensive and cumbersome to support authentication via cards. HP Proximity Card Readers, however, offer support for multiple card formats in a single card reader.

Improve productivity

Simplify login at the printer or MFP by tapping an ID badge to transmit credentials. HP Proximity Card Readers merge security with convenience for end users.

Accurate authentication

Enhance accuracy and accountability with a card reader designed to eliminate errors associated with individual identification at the device. When used as log-on readers, HP Proximity Card Readers even meet HIPAA requirements in the healthcare field.

Wide-ranging, versatile support

HP Proximity Card Readers support both HP and select non-HP devices, and are engineered to work with many protocols. They communicate to the host through USB or Compact Flash (CF) using the MFP 24 protocol.

HP Common Proximity Card Readers are dual-band card readers, capable of reading 125 kHz and 13.56 MHz frequencies simultaneously. They can read two different card configurations, including frequency, card type and data formatting.

HP Universal Proximity Card Readers can configure the reader's beeper volume and read four different card configurations simultaneously. Use the built-in SIM slot for additional card types.

HP HIP Keystroke Readers are designed for the Hardware Integration Pocket (HIP) on HP devices, and are compatible with nearly every type of badge worldwide. This dual-frequency card reader emulates a keyboard, and keystrokes employee information when the badge is waved over the reader.

Specialized proximity card readers provide support for specific classes of cards. See the table on the next page for more information.

Ordering information

Product # Product name

Supported card types

HP JetAdvantage Secure Print and Private Print

X3D03A HP Universal USB Proximity Card Reader
HID Prox (125k Hz); MiFare 14443A and 15693 (13.56 MHz); HID iCLASS (13.56 MHz);
Card Serial Number (CSN) (13.56 MHz)

HP Access Control

B0D40A HP Common CF Proximity Card Reader
Aavid; Cardax UID; CASI-RUSCO (GE Security & UTC); Deister UID; ISO 14443A CSN; Advant CSN (Legic); DESFire CSN; I-tag CSN (IBM); MiFare CSN (Philips, NXP); MiFare Ultralight CSN (Philips, NXP); DIGITAG; EM/Marin EM 410x (RDR-6E8x Compatible); EM/Marin EM 410x Alternate; GProx-II UID; HID iClass CSN; HID Prox; HiTag 1 and S Alternate; HiTag 1 & S (RDR-6H8x Compatible); HiTag 2 Alternate; HiTag 2 Primary (RDR-6H8x Compatible); Indala ASP 26 Bit; ISO 15693A CSN; etag CSN (Secura Key); I-Code CSN (Philips, NXP); my-d CSN (InP neon); Tag-It CSN (Texas Instruments); HID Prox (125k Hz); MiFare 14443A and 15693 (13.56 MHz); HID iCLASS (13.56 MHz); Card Serial Number(CSN) (13.56 MHz); Indala ASP UID (Motorola); Indala ASP+ UID (Motorola); ioProx (Kantech); Farpointe Data (Pyramid) NXT UID; Keri NXT UID; Pyramid (Farpointe Data) UID; Farpointe Data (Pyramid) NXT 26 Bit; Keri NXT 26 Bit; Pyramid (Farpointe Data) NXT 26 Bit; Keri UID (RDR-6K8x Compatible); NexKey, Quadrakey, KeyMate, 2Smart Key (Honeywell); Nexwatch (Honeywell); Radio Key (Secura Key -02) (RDR-6Z8x Compatible); ReadyKey PRO UID; Rosslare; Russwin UID; SecuraKey -0

X3D03A HP Universal USB Proximity Card Reader
Y7C05A HP HIP Keystroke Reader
All of the above card types + Cepas, Nedap, Sony FeliCa (NFC Tag Type 3), Octopus (Hong Kong), Oyster (London & Canada), ISO 14443B CSN (NFC Tag Type 1), NFC Types 1 & 3 non-Random CSN, MIFARE (Improved Read Range), MIFARE Secure Sector, Cotag, GProx-II ID, ID Teck Alternate (128 bits), Isonas, HiTag: Improved Read Range, RDR-758x Equivalent (iClass CSN, ISO14443A CSN, ISO15693 CSN, MIFARE CSN [Philips, NXP], MIFARE DESFire CSN), RDR 608xxx Equivalent (HID, iCLASS ID, HIP Prox) SIM slot for future card types

Y7C07A SIM for HP HIP 2 Readers
iClass and Secure Sector

CE931A HP iClass USB Proximity Card Reader
HID iClass (Secure Sector or CSN)

B0D38A HP iClass CF Proximity Card Reader

CE983A HP Legic USB Proximity Card Reader
Advant (Legic) (Secure Sector or CSN)

B0D39A HP Legic CF Proximity Card Reader

HP Proximity Card Readers are available with either a USB connection for simple connection to newer printers and MFPs, or a CF (serial) connection for compatibility with older devices. A flexible design and an articulated cable allow all HP Proximity Card Readers to be placed anywhere on the printing device. If the HP device has a HIP, you can place the reader inside for a seamless look.

The X3D03A and Y7C05A reader fits in the new, smaller HIP pocket and comes with an adaptor to fit in the original HIP pocket.

Why HP?

HP is a global leader in imaging and printing solutions, offering technical expertise along with reliable products and powerful solutions.

Reduce costs and improve your imaging and printing infrastructure

Change the way you do business by changing the way you think about printing. Trim overall printing costs by investing in time—and money—saving solutions.

Meet your business IT goals

Extend the value of your imaging and printing hardware using solutions customized to meet specific needs. Trust HP and partner technology to handle even the most complex security, workflow, and document management issues.

Choose from a wide variety of premier solutions

Solutions are designed to work seamlessly with management tools.

Get started today

When choosing HP solutions, rely on HP Document Solutions Specialists. These trusted advisors have been trained to help you assess your business needs, install the solutions that can enhance your organization's effectiveness, and provide ongoing support.

Contact your local HP Document Solutions Specialist for more information about HP Proximity Card Readers and other imaging and printing applications.
