

HP Bright White Inkjet Bond Paper

HP Bright White Inkjet Paper with ColorPRO Technology delivers professional quality at production speed. ColorPRO Technology produces more striking colours, crisper text and graphics, and higher-contrast blacks for striking results.

Ideal for high-production engineering environments in CAD, AEC and GIS segments; and PSPs printing posters and presentations, and POP and retail displays.

See the ColorPRO difference at its brightest

- See the bright, clear difference
- See precise lines with sharp, fine detail
- See high-impact graphics with an extended range of colours
- HP Bright White Inkjet Paper with ColorPRO Technology delivers a unique combination of visibly enhanced print quality and rapid ink absorption for striking results at production speed.

Increase productivity and lower printing costs

- Optimise your everyday printing with the reliable, trouble-free performance of cost-effective HP Bright White Inkjet Paper
- Increase productivity, lower costs and save time by printing on true metric-sized media
- This avoids the need to buy - and cut down - larger-sized media, reduces scrap and provides greater versatility.

Print with ease and with the environment in mind

- To keep your workflow running smoothly, we design the entire HP printing system together, including Original HP printing materials, HP inks and the HP Designjet printer, to provide reliable, trouble-free printing
- Help meet the environmental objectives of your company and your clients
- HP Bright White Inkjet Paper is FSC® certified, supporting the development of responsible forest management worldwide and is recyclable through commonly available recycling programs¹.

¹Products with a Forest Stewardship Council (FSC) Mixed Sources label support the development of responsible forest management worldwide. The wood comes from FSC® certified well-managed forests, company-controlled sources and/or recycled material. Trademark license code FSC-C017543.

HP Bright White Inkjet Bond Paper

Product specifications

Weight	90 g/m ² per ISO 536 Test Method																					
Thickness	4.7 mil/119 microns per ISO 534 Test Method																					
Opacity	94% per ISO 2471 Test Method																					
Brightness	113% per ISO 2470-2 Test Method																					
Whiteness	166 per ISO 11475 Test Method																					
Lamination	Can be laminated with commercially available pressure-sensitive laminate films. Visit HP's lamination partner for more information.																					
Finish	Matte																					
Operating temperature	15 to 30°C																					
Operating humidity	20 to 80% RH																					
Waterfastness	Lamination required																					
Dry time	90 seconds (@ 23°C, 50% RH)																					
Shelf time	2 years, unopened in original packaging																					
Country of origin	Product of Poland
