

USB C Multiport Adapter - Portable USB-C Mini Dock 4K HDMI Video - Gigabit Ethernet, USB 3.0 Hub (1x USB-A 1x USB-C) - USB Type-C Multiport Adapter - Thunderbolt 3 Compatible

Product ID: DKT30CHD

This USB-C Multiport Adapter with HDMI combines the capability of three single-function adapters, a USB-C video adapter, USB-C to USB 3.0 adapter, and Gigabit Ethernet adapter, into a portable docking station for your laptop. You can connect a 4K HDMI display and two USB 3.0 devices (1x USB-A, 1x USB-C), and get high-speed network access, all through a single cable.

The USB Type-C adapter is compatible with Thunderbolt 3 ports.

With HDMI output, this USB-C multiport adapter makes it easy to expand your virtual workspace onto an external 4K HDMI monitor. The adapter supports resolutions up to 4096 x 2160p (24Hz) or 3840 x 2160p (30Hz), as well as audio.

The USB-C multiport adapter ensures a reliable wired network connection with a Gigabit Ethernet port, which is ideal for areas with limited Wi-Fi access such as in classrooms, office buildings and hotels.

With two USB 3.0 ports (1x USB-A, 1x USB-C) you get access to traditional USB Type-A devices, as well as newer USB-C devices you add in the future.

With its compact design and bus-powered performance, the portable multiport adapter is easy to take with you anywhere you take your laptop. The adapter features a pre-attached USB-C cable, so you have one less cable to carry when you're on the move.

- Maximum compatibility - StarTech.com has a docking station to fit every operating system, laptop brand, and connectivity need
