

GorillaPod™ 3K Kit

New! Professional, Lightweight Tripod Kit for DSLR Cameras up to 3kg

For devices that weigh less than 3kg (6.6lbs), the GorillaPod 3K Kit easily adapts to support compact DSLR, mirrorless cameras or heavier flashes and is robust enough to hold multiple video lights or microphone with JOBY's accessory kit or mounts. We've paired the stand with our pro grade BallHead 3K, featuring separate pan joint for precise positioning. It's larger size makes this pair ideal as a grip for vlogging or live streaming.

Designed for: DSLR cameras, flashes and video lights or any device with a 1/4"-20 mount that weighs under 6.6 pounds

Connection: 1/4"-20 Standard Tripod Mount

Materials: Machined Aluminum, proprietary ABS Plastic, Stainless Steel, TPE

Features & Benefits

GorillaPod 3K Stand

- **Flexible:** Wrappable legs allow you to secure professional camera equipment to virtually any surface
- **Versatile:** Mount compact DSLR cameras, flashes, video lights or any device weighing less than 6.6 lbs with a 1/4"-20 tripod mount
- **Overachiever:** Can be configured for still photography, videography, vlogging or live streaming in 3 modes: grip, wrap or stand
- **Strong:** Holds devices weighing up to 3kg (6.6 lbs)
- **Stable:** Rubberized grip rings and foot grips provide enhanced stability in difficult terrain
- **Durable:** Japanese medical-grade ABS plastic and German TPE for firm, secure joints
- **Patented:** Often copied, never duplicated

BallHead 3K

- **Precise:** 360° panning bed and 90° tilt for optimal position control
- **Versatile:** Mount DSLR cameras, flashes, video lighting or any other 1/4"-20 device weighing under 6.6 lbs
- **Modular:** Works with JOBY pro-level accessories, including GripTight PRO Mounts, GorillaPod Arms and Hub Adapter that allow for mounting GoPro® adapters, flash clips, lighting and microphones
- **Evolved:** Quick release plate and bubble level can be used on GorillaPod 3K or any tripod with a 1/4"-20 mount
