

C-Pen 3.0

Scanning and OCR – Easy and Convenient

With C-Pen 3.0 you can scan and OCR (character recognition) printed text into your computer. A brief sweep with your C-Pen and the text instantly appears in any open application on your computer. Easy to use with e.g. translation software, text-to-speech applications, internet banking, etc. These applications are NOT included in this package but check www.cpen.com for available solutions.

USB connected – simple and reliable

C-Pen 3.0 is a USB connected device. Simple to install, easy to use, and powered from the computer it never runs out of battery.

Ergonomic Design

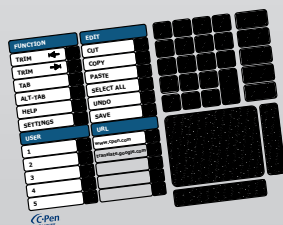

C-Pen 3.0 with its ergonomic design fits perfectly in your hand and is designed for both left and right-hand use without any change of settings.

C-Pen Core Software

C-Pen 3.0 is shipped with C-Pen Core Software for Windows. C-Pen Core is designed to seamlessly fit with multiple applications. Visit www.cpen.com for more details.

C-Pad™

C-Pad™ is a control pad for the C-Pen Core software. With C-Pad you can easily enter special characters and commands without releasing C-Pen from your hand. The C-Pad is provided as a pdf and is easily printed on a regular printer. Visit www.cpen.com for more details.
