

## Visio 2010: Advanced Diagramming Made Simple!

Which version of Visio® 2010 is right for you? SKU Chooser/ Comparison Chart	Visio Standard	Visio Professional	Visio Premium
<i>Key templates and shapes to jump-start your diagramming</i>			
<b>Brainstorming / mind maps</b>	X	X	X
<b>Cause and Effect / Ishikawa / Fishbone</b>	X	X	X
<b>Improved Cross-Functional Flowchart / Swim Lane</b>	X	X	X
<b>Organizational charts</b>	X	X	X
<b>Project Management diagrams</b> including timelines and calendars, Gantt Chart and Pert Chart.	X	X	X
<b>Building architecture and services diagrams</b> including space, floor plan, electrical, plumbing, HVAC and more...		X	X
<b>Detailed Network diagrams</b> including Active directory services, and Rack servers.		X	X
<b>Engineering diagrams</b> including electrical, chemical, mechanical and more.		X	X
<b>ITIL (IT Infrastructure Library) diagram</b> to define infrastructure technology requirements.		X	X
<b>Pivot Diagram</b> to automatically create hierarchical diagrams that group and total your data for visual analysis and presentation.		X	X
<b>Software and Database diagrams</b> including UML and Website Map.		X	X
<b>Value Stream Maps</b>		X	X
<b>Web site mapping and documentation</b> including auto-generation of Web site maps.		X	X
<b>New Wireframe Diagram</b> to create medium-fidelity wireframe diagrams for software application prototyping and design.		X	X
<b>New &amp; Advanced Business Process Modeling Notation (BPMN) template</b> that contains BPMN shapes and intelligent rules.			X
<b>New &amp; Advanced SharePoint® Workflow template</b> that contain SharePoint workflow shapes and intelligent rules.			X
<b>New &amp; Advanced Six Sigma templates</b> that contain Six Sigma shapes and intelligent rules.			X
<i>Key features for intuitive navigation and easy diagramming</i>			
<b>New Auto Align &amp; Space</b> to align and position everything in the diagram or a selected area properly with a single click.	X	X	X
<b>New Containers</b> to group related shapes logically and visually.	X	X	X
<b>New Copy &amp; Paste</b> to paste copied shapes exactly where you want them on the page.	X	X	X
<b>New Dynamic Grid</b> to position shapes relative to one another more accurately and with minimal effort.	X	X	X
<b>New Insert and delete shapes with automatic alignment and spacing.</b>	X	X	X
<b>New Live Preview</b> to see how formatting options such as themes, alignment, and positioning will look before applying them.	X	X	X
<b>New Microsoft® Office Fluent user interface</b>	X	X	X
<b>New Page Auto Size</b> to create larger diagrams with an expandable canvas that automatically resizes to adjust to your need.	X	X	X
<b>New Quick Shapes Mini Toolbar</b> to add your most common shapes with a single click, without leaving the drawing page.	X	X	X
<b>New Quick Shapes stencil</b> which contains the shapes from each open stencil Quick Shapes area in one convenient view.	X	X	X
<b>New Shapes Window</b> that makes finding and selecting the shapes and stencils you want much easier.	X	X	X
<b>New Status Bar</b> that helps you quickly adjust zoom level, switch into full screen, or switch between open drawings.	X	X	X
<b>New Themes Gallery</b> to quickly create great-looking diagrams with pre-installed themes.	X	X	X
<b>New Intelligent validation</b> to find common diagramming errors or check for compliance with business rules.			X
<b>New Subprocesses</b> to break complex processes in diagrams into more manageable pieces for re-use and consistency.			X

Which version of Visio® 2010 is right for you? SKU Chooser/ Comparison Chart	Visio Standard	Visio Professional	Visio Premium
<i>Dynamic, data-driven diagrams</i>			
<b>Automatic Data Linking</b> to one or multiple data sources such as Microsoft® Excel, Access, SQL, and SharePoint Services list.		X	X
<b>Automatic Data Refresh</b> with the time intervals you define.		X	X
<b>Improved Data Graphics</b> to show real-time data right within the diagrams using vibrant colors, icons, symbols and data bars.		X	X
<b>New Data Legend</b> to explain the meaning of data-linked Data Graphics.		X	X
<i>Sharing with anyone, even those who don't have Visio installed</i>			
<b>Static sharing of diagrams</b> by saving as PDF, XPS or a web page.	X	X	X
<b>New Real-Time sharing of dynamic, data-driven diagrams via a browser</b> —using Visio Services and SharePoint® 2010 integration.		X	X
<i>Integration with other products</i>			
<b>Improved Autodesk AutoCAD capabilities.</b>	X	X	X
<b>Microsoft® Office integration</b> through data import/export and embedding Visio diagrams in other documents.	X	X	X
<b>Microsoft® Office Excel® integration</b> to create Shape Reports about the properties and data stored in shapes.	X	X	X
<b>Microsoft® Office Outlook® integration</b> including “Import Outlook Data Wizard” to create Visio calendars.	X	X	X
<b>Microsoft® Office Project® integration</b> with Visio Gantt charts and timelines.	X	X	X
<b>Microsoft® Visual Studio® programming</b> support, including Microsoft® .NET.	X	X	X
<b>New Publishing of diagrams to SharePoint Process Repository</b>	X	X	X
<b>Database modeling diagrams</b> with reverse engineering of any Open Database Connectivity–compliant data source.		X	X
<b>New Visual mash-ups with Visio Services</b> to create dashboards using real-time data, and other services in SharePoint® Server 2010.		X	X
<b>New SharePoint® Workflow import and export</b> through Microsoft® SharePoint® Designer 2010.			X
<i>Customization and extensibility</i>			
<b>New Connectivity API</b>	X	X	X
<b>New Fluent UI API</b> including Command Bar and Ribbon API	X	X	X
<b>Shape customization</b>	X	X	X
<b>New Structured Diagram API</b>	X	X	X
<b>XML Web services integration</b>	X	X	X
<b>Data-driven solution support API</b>		X	X
<b>New Subprocess API</b>			X
<b>New Validation</b>			X

<sup>1</sup>You can save as a PDF or XPS file from a 2010 Microsoft Office system program only after you install an add-in. For more information, see [Install and use a PDF or XPS add-in](#).
