Soba™

CABLE DIRECTOR

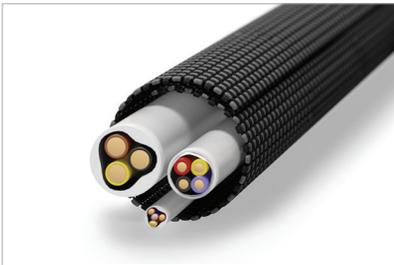

# SHOW YOUR CABLES WHO'S BOSS.

Soba zips up loose cables up and consolidates them into a single tube that can be routed and affixed along walls, under desks, anywhere you have multiple cables running that you want to tidy.

## VORTEX TECHNOLOGY

Use the Vortex zipper (included) in a sliding motion to open and route cables. Once the zipper passes, Vortex technology will auto-coil tube, bundling the cables inside.

## BUNDLE UP

Soba bundles up to three cables in its tubing to making it easier to manage.

## ROUTE GUIDANCE

Mounting caps help route bundled cable where you need it, under desks, along a wall or behind a piece of furniture.
