

NETGEAR®

Quick Start

orbi™

Download the NETGEAR Orbi app to get started

The NETGEAR Orbi app guides you through the installation.

To download the app, visit Orbi-app.com.

A sticker on your Orbi router displays the preset WiFi network name, password, and QR code.

Note: Your Orbi router might look different from this image.

Orbi satellite sync information

Note: The following information applies only if you're installing an Orbi satellite.

During the installation, your satellite's ring LED lights one of the following colors:

-  **Blue.** The Orbi router and satellite successfully synced, and the connection between the router and satellite is good.
-  **Amber.** The Orbi router and satellite successfully synced, and the connection between the router and satellite is fair. Consider moving the satellite closer to the router.
-  **Magenta.** The Orbi router and satellite failed to sync. Move the satellite closer to the router and press the **Sync** button on the router and satellite.

Do more with the NETGEAR Orbi app

Now that your Orbi WiFi is set up, here are some more things you can do with the app:

Change your WiFi network name and password.

View a list of devices that are connected to your network.

Manage content and time online on any connected device with Circle smart parental controls.
