

Parallels Desktop® 7

Switch to Mac™ Edition

windows
on your mac.
who says you
can't have the best
of all worlds?

Business programs, financial software, games—you've invested a lot in **Windows** applications. Now you can bring them all to your **Mac**.

Get Started Quickly

All that time and money you've investing into outfitting your PC? It goes right into your Mac. The Parallels Wizard makes it simpler to move your programs, data and media (My Documents, My Pictures, My Music, My Videos, My Downloads, and Desktop) to the appropriate folders on your Mac. Follow the step-by-step setup, and your files will be organized automatically.

Watch and Learn

Parallels Desktop 7 Switch to Mac Edition includes nearly 2 hours of in-box video tutorials. Whether you need to learn how to make a new home for Windows on your Mac, how to run Windows side-by-side with Mac OS X, or all about Mac OS X Lion, it's easy when you see how it's done.

Best of All – No Rebooting

Save time and money by working simultaneously in both Mac OS X Lion and Windows, even seamlessly sharing documents back and forth. You can even start comfortably with the familiar look of Windows, then add more and more of the Mac look, feel and experience as you learn your Mac.

TESTED, TRUSTED AND TALKED ABOUT*

New to Mac? No worries. The tools in this box will guide you through an easy, **step-by-step move.**

A complete suite of moving tools in the box

- The new Parallels Wizard manages the move of your old system to your new Mac.
- Move the way you want, using a network, external storage or the Parallels High-Speed USB Transfer Cable, the quick and convenient way to just plug and go.
- Movies, music, pictures, documents, applications and even your browser favorites are all available for use on your Mac when the move is complete.

Get to know your Mac with the best set of learning tools available today

- User-directed tutorials mean you learn only what you need to know.
- Because the tutorials are right in the box, they are there when you want them.

Be a **Mac** owner and still a **Windows** user

- Have the Mac you want and still use the Windows programs you need.
- Windows programs can be launched right from the Mac Dock.
- You can copy & paste and drag & drop files and data between Windows and Mac applications.
- Use all your Windows-based programs on your Mac, even graphically intense apps.
