High quality, economical monochrome laser printing

Samsung Monochrome Laser Printer
ML-2540/2545 Series

Samsung launches cost-effective addition to mono-laser printer series

Efficient, eco-friendly and easy-to-use ML-2540/2545 series boost Samsung's ever-growing laser printer line-up

A true performer

If you're looking for a laser printer that offers true value for money, take a look at the Samsung Mono Laser Printer ML-2540/ML-2545 Series. From the fast print speeds of up to 24ppm, to the 300MHz CPU, and 64MB RAM as standard, you can guarantee your print-outs will be processed and delivered without delay. While the impressive resolution of 1200 x 1200 dpi ensures you will never be disappointed with the quality of your prints.

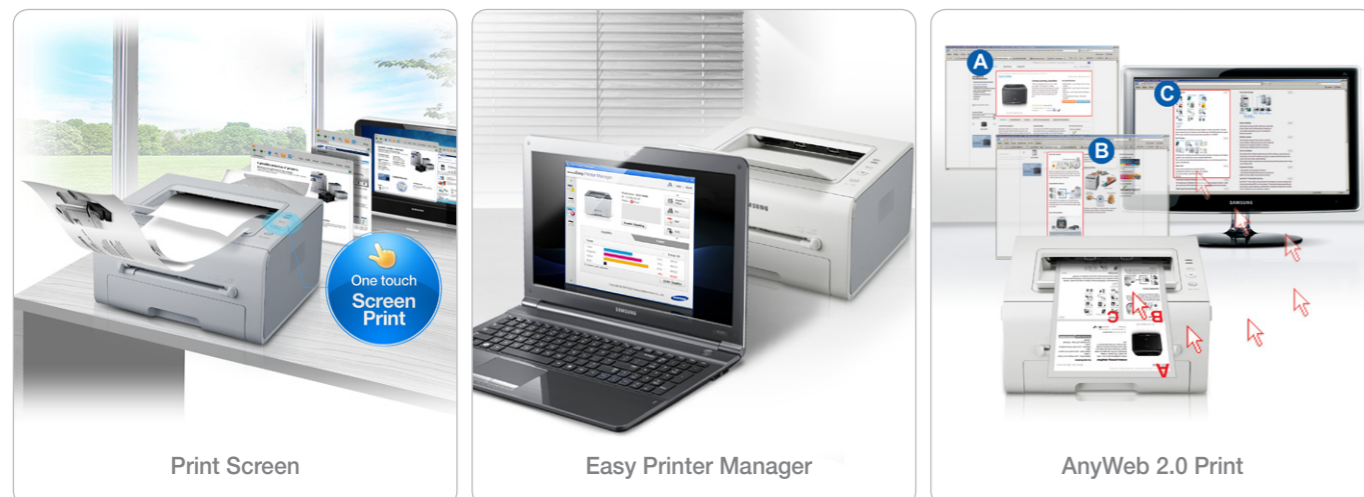

Maximum convenience. Minimum fuss.

For busy users who handle high volumes of online information, or work across multiple applications, the simple, yet highly effective **Print Screen** function enables you to print the contents of your screen with just one touch. With a single touch of the Print Screen button you can effortlessly pull together multiple web pages, pictures or other documents and print them all together in a single operation:

- Touch the Print Screen button for less than two seconds, and you can print out the contents of your screen as you see it. Allowing you to pull together web information, pictures or other documents in separate windows, and print them all together in a single document.
- Touching the Print Screen button for longer than two seconds prints only the active window.

Samsung **Easy Printer Manager** enables you to manage all of your Samsung device settings, status monitoring, supplies ordering, scanning and faxing in one convenient, easy-to-use location. You can also utilise advanced functions such as job accounting, event logs and alert settings – providing a single interface to all your Samsung printing device setting and applications.

Another useful feature is Samsung's **AnyWeb 2.0 Print** software. It allows you to select, drag and drop content from different web pages into a single scrap board, without the need to resize or edit. The pages you create can be saved as tiff files or PDFs, and printed using the Print Screen button or your normal print menu – enabling you to quickly and easily print what you see.

Pocket-Friendly printing

The Samsung Mono Laser Printer ML-2540/ML-2545 Series is full of cost-efficient features that help you to save while you print.

The wide choice of consumables meets a range of budgetary needs. High yield toner cartridges, which are ideal for heavy users, last longer and give you lower costs per page; while, low yield toner cartridges have the advantage of a lower initial outlay.

As well as low power consumption as standard, the conveniently located on/off button on the top panel enables you to easily switch the device on and off when required; enabling you to reduce power consumption even further when the device isn't needed.

Stylish, yet functional design

Dust Cover

Alongside adding to the sleek, streamlined look, the dust cover also helps to reduce the risk of spillages and debris, such as staples and dust from entering the device.

Sleek

The smooth surface softly wraps around the device to create a mono laser printer that requires less cleaning and brings a touch of style to any business environment.

Built-in

Practical and stylish, the built-in 250 sheet cassette tray requires fewer refills, provides a compact finish and ensures the paper is kept dust free and clean; ensuring reliable, professional prints every time.
