Gigabit PoE af/at 8-Port Switch + 1x SFP Uplink 10/100/1000Mbps, 150W PoE Power Budget, metall housing, rack mountable

The DIGITUS 8-Port Gigabit Rack mount Switch with eight Power over Ethernet ports and one additional SFP Fiber Port, offers your network significant improvement in terms of performance and efficiency. Thanks to PoE support, you only need a single (network) cable for power and data transfer. This switch makes it much easier to connect devices such as access points, network cameras, and IP telephones, and requires far less cabling than alternatives. It also allows you to extend your network in places where there are no power supply cables or sockets available.   The switch does not require any configuration and therefore guarantees quick and seamless integration into the network. Moreover, the switch has a rack mountable design and can be easily installed with many standard racks, which makes this device the perfect solution for data center and local server rooms.
