

EXILIM EX-Z800

EXILIM
ZOOM

HIGHLIGHTS

4x optical zoom with mechanical image stabilizer

Zoom in on your favourite moments: The 4x optical zoom can bring even the most distant subjects up close, while the automatic mechanical image stabiliser significantly reduces blurring.

Single Frame SR Zoom

The EX-Z800's 4x optical zoom alone allows you to take highly detailed images, but with the Single Frame SR Zoom, the zoom range increases by 1.5. This means the 4x optical zoom is converted to a 6x digital zoom with optical zoom quality.

27 mm wide-angle lens

Whether for landscape photos, tourist sights or group pictures in confined spaces: the 27 mm wide-angle lens* makes the EX-Z800 your perfect companion whatever the occasion.

Mechanical image stabilisation

It is virtually impossible to hold a camera absolutely still. Even the slightest movement can cause blurring and lack of clarity in the photo.

New: enhanced Premium Auto mode

Whether it is a portrait, landscape or night shot that you want to take, or if the lighting conditions and backlighting are challenging, the EXILIM EX-Z800 allows you to focus your full attention on your subject.

The EXILIM Zoom EX-Z800 is available to buy from specialist dealers, shopping centres, electrical goods stores and all good shops.
