Notice for customers: the following information is only applicable to equipment sold in countries applying EU directives

This product has been manufactured by or on behalf of Sony Corporation, 1-7-1 Konan Minato-ku Tokyo, 108-0075 Japan. Inquiries related to product compliance based on European Union legislation shall be addressed to the authorized representative, Sony Belgium, bijkantoor van Sony Europe Limited, Da Vincilaan 7-D1, 1935 Zaventem, Belgium. For any service or guarantee matters, please refer to the addresses provided in the separate service or guarantee documents

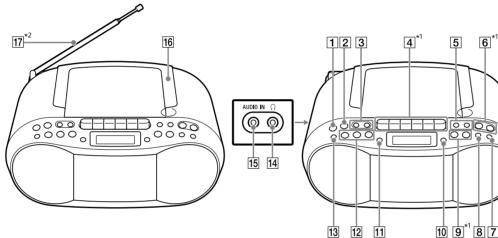

For customers in Europe and Oceania

Disposal of waste batteries and electrical and electronic equipment (applicable in the European Union and other European countries with separate collection systems)

This symbol on the product, the battery F or on the packaging indicates that the product and the battery shall not be treated as household waste. On certain batteries this symbol might be used in

combination with a chemical symbol. The chemical symbols for mercury (Hg) or lead (Pb) are added if the battery contains more than 0.0005% mercury or 0.004% lead. By ensuring these products and batteries are disposed of correctly, you will help prevent potentially negative consequences for the environment and human health which could otherwise be caused by inappropriate waste handling. The recycling of the materials will help to conserve natural resources.

Basic Operations

*1 CD PLAY/PAUSE (>II) 9, VOLUME + 6 and < 4 have a tactile dot. *2 Extend the FM antenna [17] only when listening to FM radio (for AM radio, a ferrite bar antenna is built into the unit)

To adjust the volume

Press VOLUME + or – 6. The volume level of this unit is adjustable in steps If you want to adjust the volume level continuously,

volume level when listening through headphones.

To turn the bass enhancement function on or off

Press MEGA BASS 7.

When you press the button, the function will either "MEGA BASS" disappears). By default, this function

- **1** Press **1** to turn on the power of the unit. **2** Insert the tip of your finger into the opening
- tab to open the CD compartment cover. Open the CD compartment

*1 If MP3 files are present only in the root directory, "001" appears on the display

*2 If the playing time is longer than 100 minutes, "--:--" appears on the display *3 By pressing DISPLAY/ENTER 11, the playback screen

changes between showing playing time and the current track number (or showing the current folder and file numbers (MP3)).

To switch to the CD function from other

Press CD PLAY/PAUSE (>II) 9.

If a previously played disc has been set, playback will start automatically. Press **STOP** (■) 9 to stop playback if necessary.

Other operations

- Do this Pause playback Press CD PLAY/PAUSE (►II) 9. To return to playback, press the button again
 - Press STOP (
) 9. If you press CD PLAY/PAUSE (►II) 9 after playback has been stopped, playback will start from the beginning of the track/file you were last playing (Resume Play). If you want to start playback from the first track/file on the disc, press STOP (■) 9 twice, and then press

CD PLAY/PAUSE (►II) 9.

Press TUNE/ + or - 3. on an MP3 disc

> Press ┥ or 🍽 5. You can skip tracks/files one by one.

Find a point in a Hold down \bowtie or \bowtie 5 during playback, and release the button at the desired point. When locating a point while paused, press CD PLAY/PAUSE (►II) 9 to start playback after the desired point is found.

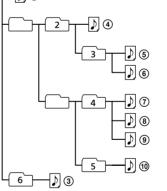

Resume Play is cancelled in the following cases - When you open the CD compartment cover - When you turn off the power.

Example of folder structure and playing order The playing order of the folders and files is as

follows. However, the playing order may differ from the original order on the disc, depending on the recording method used.

-1)@

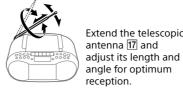

• When a disc is loaded, the unit reads all the files on that disc. During this time, "READ" is flashing. If there are many folders or non-MP3 files on the disc, it may take a long time for play to begin or for the next MP3 file to start to

- We recommend that non-MP3 files or unnecessary folders are excluded when creating MP3 discs. • During playback, audio files other than MP3 files are skipped even if those files are included in a folder. • This system can only play MP3 files that have a file
- Note that even if the file name has the correct file extension but the actual file was created in a different
- audio format, this unit may produce noise or may
- This unit cannot play audio files on a disc in the following
- When the total number of audio files exceeds 413. - When the total number of folders on a single disc exceeds 99 (including the "ROOT" folder) When the directory level (folder depths) exceeds 9

Listening to the radio

1 Press \bigcirc **1** to turn on the power of the unit. 2 Adjust the antenna for optimum reception.

FM

AM

Reorient the unit itself for optimum reception (a ferrite bar antenna is buil into the unit).

- 3 Press FM/AM 2 repeatedly to select the "FM" or "AM" band.
- 4 Hold down TUNE/ + or 3 until the frequency digits begin to change on the display.

The unit automatically scans the radio frequencies and stops when it finds a clear station

If you cannot tune to a station using automatic tuning mode, press TUNE/ + or - 3 repeatedly to change the frequency step by step When an FM stereo broadcast is received, "ST" lights up on the display.

- The unit of frequency of tuned stations is MHz for the FM band and kHz for the AM band.
- If the stereo FM reception is noisy, press PLAY MODE 10 repeatedly until "Mono" appears on the display. You wil lose the stereo effect, but the reception will be improved.

To improve radio reception

etc.

Use the radio in a place where radio signals can be easily received such as near a window. Also, adjust the antenna (FM) or reorient the unit itself (AM) for good reception

Areas with poor Areas with good reception: reception Far from windows, Near windows, etc.

If the reception problem still persists, try changing the installation location Avoid places such as the following

To change the preset station

Repeat steps 1 to 3. The preset station on the button will be replaced by the new one.

Listening to preset stations with **FAVORITE RADIO STATIONS** buttons

Press the desired FAVORITE RADIO STATIONS (-SET) 12 button.

To prevent the preset from being changed by mistake, do not hold down the button. If doing so, the preset on the button will be replaced by the currently tuned station.

path

Discs that this unit CAN play

 Audio CD (CD-DA*1 tracks) • CD-R/CD-RW discs on which CD-DA tracks are recorded in CD-DA format.

• CD-R/CD-RW that contains MP3 files and is finalized*2 correctly.

^{*1} CD-DA is the abbreviation for Compact Disc Digital Audio It is a recording standard used for audio CDs. $^{\ast 2}$ Finalizing is the process to make the CD-R/CD-RW discs playable on the consumer disc player products, and the finalizing can be enabled or disabled as optional settings during disc creation in most recording software.

Discs that this unit CANNOT play

• CD-R/CD-RW other than those recorded in audio CD format or formats conforming to ISO 9660 Level 1/Level 2 or Joliet • CD-R/CD-RW of poor recording guality, CD-R/

CD-RW with scratches or that is dirty, or CD-R/ CD-RW recorded using an incompatible recording

• CD-R/CD-RW that is unfinalized or finalized

 BD-ROM, BD-R/BD-RE • DVD-ROM, DVD-R/DVD-RW, DVD+R/DVD+RW,

Notes on discs

device

incorrectly

DVD-RAM

 Clean the CD with a cleaning cloth if the disc is dirty. Wipe the disc from the center out. If there are scratches, dirt or fingerprints on the disc, a tracking error may occur.

• Do not use solvents such as benzine, thinner, commercially available cleaners or anti-static spray intended for vinyl LPs. • Do not expose the CD to direct sunlight or heat

sources such as hot air ducts or leave it in a car parked in direct sunlight as there can be a considerable rise in temperature inside the car.

• Do not stick paper or a sticker on the CD, or scratch the surface of the CD.

• After plaving, store the CD in its case

Note on DualDiscs

• A DualDisc is a two sided disc product which mates DVD recorded material on one side with digital audio material on the other side. However, since the audio material side does not conform to the Compact Disc (CD) standard, playback on this product is not guaranteed.

Music discs encoded with copyright protection technologies

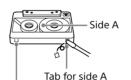

• This product is designed to playback discs that conform to the Compact Disc (CD) standard. Recently, various music discs encoded with copyright protection technologies are marketed by some record companies. Please be aware that among those discs, there are some that do not conform to the CD standard and may not be

Notes on cassettes

playable by this product.

On safety

• Remove the overwrite protection tab from side A or B to prevent accidental recording. If you want to reuse the tape for recording, cover the broken tab using adhesive tape

Tab for side B • The use of a cassette tape with more than

90 minutes of play time is not recommended except for long, continuous recording or playback.

• As the laser beam used in the CD player section is harmful to eyes, do not attempt to disassemble the casing. Refer servicing to qualified personnel

 Should any solid object or liquid fall into the unit. unplug the unit, and have it checked by gualified personnel before operating it any further.

 Discs with non-standard shapes (e.g., heart, square, star) cannot be played on this unit Attempting to do so may damage the unit. Do not

use such discs.

On power sources • For AC operation, use the supplied AC power cord; do not use any other cord.

- Unplug the unit from the wall outlet if it is not to be used for an extended period of time.
- When not using the batteries, remove them to avoid damage that can be caused by battery leakage or corrosion.

On placement

surface.

• Do not leave the unit in a location near heat sources, in a place subject to direct sunlight, excessive dust or mechanical shock, or in a car subject to the direct rays of the sun.

• Do not place the unit near the appliances that generate heat, such as lighting fixtures or heaters. The heat from those appliances may deform the enclosure and cause the system to malfunction. • Do not place the unit on an inclined or unstable

• Do not place anything within 10 mm of the rear of the cabinet. The ventilation openings must be unobstructed for the unit to operate properly and prolong the life of its components.

• Since a strong magnet is used for the speakers. keep personal credit cards using magnetic coding or spring-wound watches away from the unit to prevent possible damage from the magnet.

On operation

• If the unit is brought directly from a cold to a warm location, or is placed in a very damp room moisture may condense on the lens inside the CD player section. Should this occur, the unit will not operate properly. In this case, remove the CD and wait about an hour for the moisture to evaporate.

On handling the unit

- Do not leave the CD compartment open to avoid dust and debris contamination.
- When carrying the unit, hold it by the handle 16 to prevent it from dropping.

On cleaning the cabinet

 Clean the cabinet, panel and controls using a soft cloth slightly moistened with a mild detergent solution. Do not use any type of abrasive pad, scouring powder, or solvent, such as alcohol or benzine

If you have any questions or problems concerning your unit, consult your nearest Sony dealer.

Troubleshooting

General

"LO-BATT" flashing message appears on the display.

• Replace all the batteries with new ones. This message appears when using the unit on batteries and the battery power drops to a certain

The power does not turn on.

- Make sure the AC power cord is connected to the wall outlet securely
- Make sure the connector of AC power cord is inserted into the AC IN jack securely.
- Check if the batteries are inserted correctly. matching the polarities.

There is no sound.

- Make sure the appropriate function is selected for the music or sound source you want to listen to.
- Unplug the headphones when listening through speakers.

The sound is noisy.

• Is someone using a mobile phone or other equipment emitting radio waves near the unit? If so, move the unit away from such devices.

A small humming noise is heard from the radio.

• This is not a malfunction. You may hear a small humming noise from the radio depending on the status of the power supply.

CD player

The CD player does not play even when a CD is in place.

- Place the CD with the label side up. Clean the CD.
- Take out the CD and leave the CD compartment open for about an hour to dry moisture condensation.
- The CD-R/CD-RW is blank or unfinalized.
- There are no playable MP3 files on the disc
- There is a problem with the quality of the CD-R/ CD-RW, recording device or application software

- "noCD" appears when the disc is loaded.
- No disc is set in the CD compartment. Set a disc • The CD may have a reading problem. Replace the
- disc.
- The CD may be placed upside down. Place the disc with the label side up.
- An unplayable disc (DVD, BD, etc.) is loaded. Replace the disc.

"00" appears on the display when the disc is loaded.

• No audio files recorded in supported formats, or a file to be played back has an unsupported file extension.

"Err" appears when the disc is loaded.

- The CD may be dirty. Clean the disc.
- The CD may have scratches. Replace the disc.
- The CD may have a reading problem. Replace the
- A blank disc may be set in the CD compartment.

The sound drops out.

- Reduce the volume.
- Clean the CD, or replace it if the CD is badly damaged.
- Place the unit in a location free from vibrations. • Clean the lens with a commercially available blower.

• The sound may drop out or noise may be heard when using a poor quality CD-R/CD-RW or if there is a problem with the recording device or application software.
