

# Voxicon Manufacturing Sites and Suppliers

This document provides a comprehensive disclosure of Dustin private label brand's VOXICON TCO product's manufacturing sites and component suppliers, representing 90% of production expenditure. All suppliers are required to comply with the Dustin Supplier Code of Conduct, Dustin's comprehensive Supplier Code of Conduct, applicable laws and regulations, and various ESG-related requirements.

Compliance is ensured through formal agreements addressing anti-corruption and anti-bribery measures, annual RBA self-assessments, and independent biennial audits conducted by RBA-approved third parties. The validation process includes the receipt of audit reports, the development and monitoring of corrective action plans, and the closure of identified actions.

Furthermore, systematic monitoring of suppliers' environmental performance is implemented. The monitored aspects encompass greenhouse gas emissions, water consumption, waste management, utilization of renewable energy, and responsible sourcing of materials. This comprehensive disclosure includes 100% of the smelters and refiners in the supply chain. Additionally, the recycling of plastic materials is disclosed, which represents 15% of the production expenditure. It is noteworthy that the monitoring scope extends beyond Tier 1 suppliers to encompass critical Tier 2 and Tier 3 suppliers, ensuring the sustainability of the entire supply chain.
