Part List

No.	Part	No.	Part
①	Panel x2	⑦	Base Wire Clip x2
②	Upper arm x2	⑧	Long screw x1
③	Lower arm x2	⑨	Protection Pad x1
④	Base x1	⑩	Perforated Pressing Plate x1
⑤	EVA Pad x1	⑪	Knob x1
⑥	Base Pad x1		

Preparation before installation

Installation Instruction

Installation Steps

STEP1

Monitor installation preparation

- Check if the installed monitor has installation holes (with 75x75 or 100x100). If there are no installation holes, the stand cannot be installed. (Note: Some of the display mounting holes are used to install the original fixed base and are detachable.)
- Remove the original fixed base of the monitor (the method varies depending on the monitor). During the entire removal process, please avoid scratching the monitor panel with hard objects.

STEP2-1

Install the Clamping assembly

STEP2-2 Install the Perforated assembly

6x6

STEP3 Install the lower arm of the bracket

E x1
4x4

STEP4 Install the upper arm of the bracket

E x1
4x4

STEP7 Adjust the monitor

D x1
6x6

E x1
4x4

Warning

The factory preset load for the gas spring is 5-7 kg. After installing the monitor, adjust the monitor height. If the monitor cannot remain stationary at any desired height, use a 6*6 wrench to adjust the screw at location ② (if the monitor tends to move upward, turn the adjustment screw in the "-" direction to reduce the support's load capacity; if the monitor tends to move downward, turn the adjustment screw in the "+" direction to increase the support's load capacity). This balances the support's capacity with the monitor's weight, achieving the free-stop effect.

The factory default lower arm limit of the stand is $\pm 180^\circ$. If you need to adjust the limit to $\pm 90^\circ$, use a wrench to turn the lower screw clockwise to the appropriate position.

STEP5 Install the Panel

STEP6 Connect the monitor to the arm

STEP8 Cable Management

Warning

This product contains small items that could be a choking hazard if swallowed. Keep these items away from young children.

- Make Sure these instructions are read and completely understood before attempting installation. If you are unsure of any part of this installation, please contact a professional installer for assistance
- please check joint parts every two months, making sure the screws are loosened or not.

This product was designed to be installed on desk. Before installing, make sure the mount will support the combined load of the equipment and hardware. Never exceed the maximum load capacity 20 KG, or else it may result in product failure or personal injury

Note: this product is intended for indoor use only. Use of this product outdoors could lead to product failure or personal injury.

Waste disposal

This marking indicates that this product should not be disposed with other household wastes. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.
